Professional Summary

Flutter engineer with a Bachelor's degree in Computer Science and production experience building and shipping mobile and desktop applications across education, e-commerce, food services, and influencer marketing. At Neural Design Studios, delivers feature-first Clean Architecture apps using BLoC/Cubit, Dio/Retrofit REST integrations, Firebase, Hive/Floor local storage, and cross-platform desktop tooling (macOS/Windows). Published multiple apps to Google Play and the App Store, authored open-source packages on pub.dev, and set up GitHub Actions CI for automated APK builds. Grew quickly under senior mentorship and now mentors interns and junior developers on Flutter, Clean Architecture, and code-quality standards.

Core Skills

Flutter & Dart, Clean Architecture, BLoC / Cubit, GetIt / Injectable DI, Dio & Retrofit REST APIs, Firebase (Auth, Firestore, Messaging, Crashlytics, Analytics), Hive, Floor & SQLite, GoRouter, Freezed & Dartz, Stripe & Multi-Gateway Payments, Pusher Real-Time, Flutter Desktop (macOS/Windows), Git & GitHub Actions CI/CD, Easy Localization, Clean Code & Code Review, Mentoring Interns & Junior Developers

Professional Experience

Flutter Developer — Neural Design Studios

Full-time | Cairo, Egypt | Jun 2024 – Present

- Shipped production Flutter apps across education, e-commerce, food, and influencer marketing with feature-first Clean Architecture.
- Led Fuse: dual-app architecture for agencies and influencers with Cubit, Injectable DI, Freezed, Dio, Firebase, and Storyly.
- Built Taleem student and employee apps for Islamic education: REST API integration, Quran SQLite databases, attendance/memorization modules, and GitHub Actions CI for automated APK builds.
- Enhanced Noor Institute: Stripe payments, Pusher real-time chat, Floor local DB, Retrofit API, and Firebase push notifications.
- Delivered desktop apps: Zahran POS (offline invoice sync, PDF printing, Hive) and Proposal Desktop (PDF document builder with flutter_bloc).
- Integrated REST APIs, Firebase, social auth, maps, and payment gateways across Schupply, Zahran, Binge, and Al Wefaq Foods.
- Published open-source packages on pub.dev: [animated_contact_us](#) and [liquid_wave_indicator](#).
- Mentor interns and junior developers on Flutter, Clean Architecture, code review, and shipping first production features.

Flutter Developer — Neural Design Studios

Part-time | Cairo, Egypt | Feb 2024 – Jun 2024

- Collaborated with cross-functional teams to deliver responsive, production-ready Flutter applications.
- Implemented UI performance optimizations and scalable state management patterns.
